

Journal Citation Reports(JCR)

1. Journal Citation Reports (JCR) Home

The screenshot shows the JCR Home page with the following elements:

- [A]** A box containing the "Select a JCR edition and year:" section. It has two radio buttons: "JCR Science Edition" (selected) with a "2005" dropdown, and "JCR Social Sciences Edition" with a "2005" dropdown.
- [B]** A box containing the "Select an option:" section. It has three radio buttons: "View a group of journals by" (selected) with a "Subject Category" dropdown, "Search for a specific journal", and "View all journals".
- [C]** A "SUBMIT" button.
- [D]** A "NOTICES" button.

Below the form, there is a resolution notice: "This product is best viewed in 800x600 or higher resolution". Below that is a date notice: "The Notices file was last updated Tue Nov 14 10:38:25 2006". At the bottom, there is a link for "Acceptable Use Policy" and a copyright notice: "Copyright © 2006 The Thomson Corporation".

Journal Citation Reports(JCR) Guide

5.

The screenshot shows the JCR website interface for the journal 'ACOUSTICAL PHYSICS'. At the top, there are navigation buttons: WELCOME, HELP, RETURN TO LIST, and NEXT JOURNAL. The page is titled '2005 JCR Science Edition' and 'Journal: ACOUSTICAL PHYSICS'. Below this is a table with columns: Mark, Journal Title, ISSN, Total Cites, Impact Factor, Immediacy Index, Articles, Cited Half-life, and Citing Half-life. The row for 'ACOUST PHYS+' shows 1063-7710 ISSN, 342 Total Cites, an Impact Factor of 0.397, and an Immediacy Index of 0.030. Below the table are buttons for 'CITED JOURNAL DATA', 'CITING JOURNAL DATA', 'IMPACT FACTOR TREND', and 'RELATED JOURNALS'. The 'Journal Information' section provides details: Full Journal Title: ACOUSTICAL PHYSICS, ISO Abbrev. Title: Acoust. Phys., JCR Abbrev. Title: ACOUST PHYS+, ISSN: 1063-7710, Issues/Year: 6, Language: ENGLISH, Journal Country/Territory: RUSSIA, Publisher: MAIK NAUKA/INTERPERIODICA PUBL, Publisher Address: C/O AMERICAN INST PHYSICS, 2 HUNTINGTON QUADRANGLE, STE 1NO1, MELVILLE, NY 11747-4502, and Subject Categories: ACOUSTICS. It also includes 'Additional Links' for 'GO TO ULRICH'S', 'GO TO CC CONNECT', and 'Holdings'. The 'Journal Impact Factor' section shows a calculation: Cites in 2005 to articles published in: 2004 = 27, 2003 = 54, Sum: 81; Number of articles published in: 2004 = 103, 2003 = 101, Sum: 204. Calculation: Cites to recent articles (81) / Number of recent articles (204) = 0.397. The 'Journal Immediacy Index' section shows: Cites in 2005 to articles published in 2005 = 3, Number of articles published in 2005 = 101. Calculation: Cites to current articles (3) / Number of current articles (101) = 0.030.

Impact Factor Trend Graph: ACOUSTICAL PHYSICS
 Click on the "Return to Journal" button to view the full journal information. B

JCR Year	Impact Factor
2001	0.365
2002	0.447
2003	0.326
2004	0.340
2005	0.397

**Impact Factor -- see below for calculations*

The journal impact factor is a measure of the frequency with which the "average article" in a journal has been cited in a particular year. The impact factor will help you evaluate a journal's relative importance, especially when you compare it to others in the same field. For more bibliometric data and information on this and other journal titles click on the "Return to Journal" button.

NOTE: Title changes and coverage changes may result in no impact factor for one or more years in the above graph.

2005 Impact Factor

Cites in 2005 to articles published in:	2004 = 27	Number of articles published in:	2004 = 103
	2003 = 54		2003 = 101
	Sum: 81		Sum: 204

Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{81}{204} = 0.397$

2004 Impact Factor

Cites in 2004 to articles published in:	2003 = 40	Number of articles published in:	2003 = 101
	2002 = 33		2002 = 114
	Sum: 73		Sum: 215

Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{73}{215} = 0.340$

Journal Cited Half-Life ▲

The cited half-life for the journal is the median age of its articles cited in the current JCR year. Half of the citations to the journal are to articles published within the cited half-life.

Cited Half-Life: 5.2 years

Breakdown of the citations *to the journal* by the cumulative percent of 2005 cites to articles published in the following years:

Cited Year	2005	2004	2003	2002	2001	2000	1999	1998	1997	1996	1995-all
# Cites from 2005	3	27	54	33	46	43	30	20	17	17	52
Cumulative %	0.88	8.77	24.56	34.21	47.66	60.23	69.01	74.85	79.82	84.80	100

Cited Half-Life Calculations:

The cited half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations received by the journal. Read help for more information on the calculation.

Cited Journal Graph ▲

[Click here for Cited Journal data table](#)

This graph shows the distribution by cited year of citations to articles published in the journal ACOUST PHYS+.

Citations to the journal (per cited year)

- The white/grey division indicates the cited half-life (if < 10.0). Half of the journal's cited articles were published more recently than the cited half-life.

- The top (gold) portion of each column indicates Journal Self Citations: citations to articles in the journal from articles in the same journal.

- The bottom (blue) portion of each column indicates Non-Self Citations: citations to the journal from articles in other journals.

- The two lighter columns indicate citations used to calculate the Impact Factor (always the 2nd and 3rd columns).

Journal Citing Half-Life ▲

The citing half-life for the journal is the median age of the articles the journal cited in the current JCR year. Half of the citations in the journal are to articles published within the citing half-life.

Citing Half-Life: >10.0 years

Breakdown of the citations *from the journal* by the cumulative percent of 2005 cites to articles published in the following years:

Cited Year	2005	2004	2003	2002	2001	2000	1999	1998	1997	1996	1995-all
# Cites from 2005	6	58	127	110	119	118	81	86	66	61	1338
Cumulative %	0.28	2.95	8.80	13.87	19.35	24.79	28.53	32.49	35.53	38.34	100

Citing Half-Life Calculations:

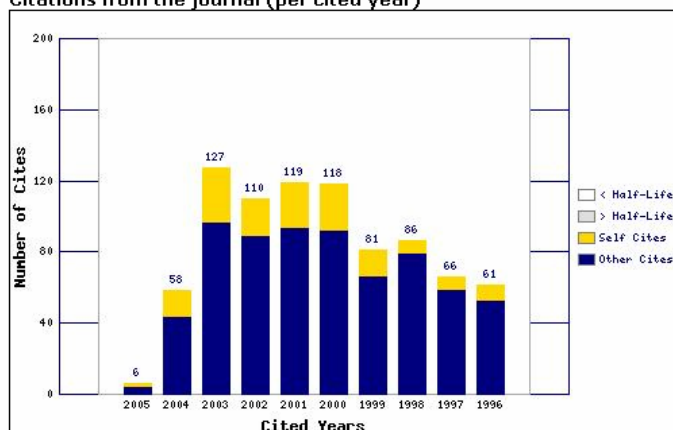

The citing half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations in the journal. Read help for more information on the calculation.

Citing Journal Graph ▲

[Click here for Citing Journal data table](#)

This graph shows the distribution by cited year of citations from current-year articles in the journal ACOUST PHYS+.

Citations from the journal (per cited year)

- The white/grey division indicates the citing half-life (if < 10.0). Half of the citations from the journal's current articles are to articles published more recently than the citing half-life.

- The top (gold) portion of each column indicates Journal Self-Citations: citations from articles in the journal to articles in the same journal.

- The bottom (blue) portion of each column indicates Non-Self Citations: citations from the journal to articles in other journals.
